

## NEWSLETTER

We want to extend a heartfelt thank you to everyone who participated in our Q3 truck & equipment cleaning day. We love bringing the team together to share insight, teamwork, and of course - laughter! We hope to continue to do more events, together as a team. Cheers to Q4!

## Happy Birthday

**NJ Laborer**  
 Pablo Camacho (3 Years)  
**CS Laborer**  
 Cesar Garcia Lopez (5 Years)  
**CS Laborer**  
 Hector Velasco (10 Years)  
**Superintendent - Former Foreman**

# Q3 NEWS

## SAFETY WINNER

WELCOME  
TO THE  
TEAM

Congratulations to our quarterly safety winner – Mr. Austin Carpenter! When asked what safety means to him, he responded, *"Simply just being smart with what we do. PPE should always be worn, especially being in the industry that we're in, so that all of my teammates can go home at the end of the day."* Congrats Austin - you have consistently raised red flags for safety concerns on job sites which in return keeps everyone on our team safe! Thanks for always being in PPE without fail :)

ERICA NORTON  
SAFETY MANAGER

ERIN HEALY  
OFFICE MANAGER

MOISES ORTIZ  
COATINGS LABORER

XAVIER GOENAGA  
COATINGS LABORER

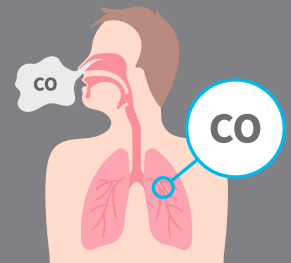

IAN ZIMMERMAN  
HARRISBURG LABORER

That as of July 2023, OSHA launched their *National Emphasis Program* focusing on warehouse safety. They will be traveling around to warehouses across the U.S. for surprise audits so PLEASE always make sure we are putting our best foot forward! PPE is ALWAYS required.

Reach out to Erica for more information:  
(484) 790-4525

## CARBON MONOXIDE

Carbon Monoxide – Daily Log

Time :	Monitor #:	Reading :

## STARTING IN Q4

It is a *requirement* that CO readings are logged 3 times a day, during your shift. Please record your readings when you arrive at the jobsite, after lunch, and before you leave the jobsite.

# PROJECT SPOTLIGHT

## Crown Point Road Warehouse Repair Project

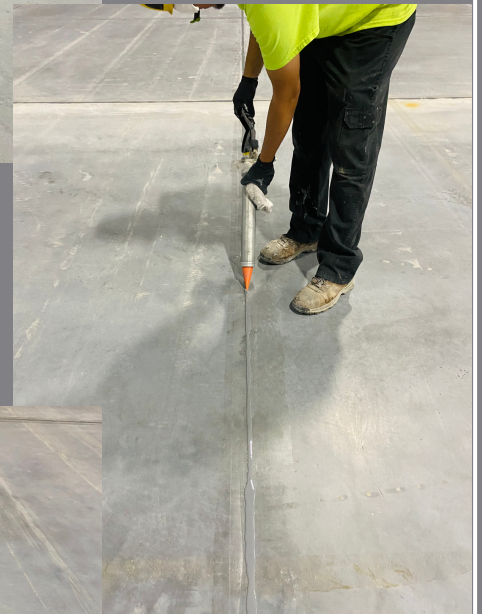

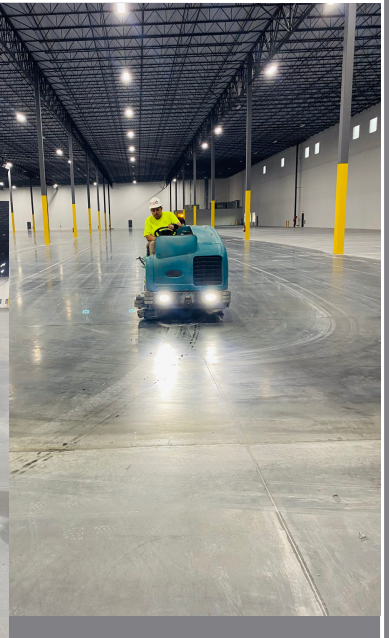

*I guess what they say is true...  
Teamwork really does make the  
dream work...*

This repair project spotlight, ran by Project Manager, Isaac Green, was 40,285 lf of joint fill, 2,042 lf of perimeter caulk, and 279,103 sqft of single pass water clean.

Our Team began by applying one coat of Metzger McGuire's Stain Preventative Film before prepping and getting the MM80p joint filler installed.

Once installed and allowed time to cure, the MM80p was scraped flush for a clean finish. Other scopes of work on this site included a Sika 2C-NS perimeter caulking application as well as water clean throughout the entire building to leave the facility looking better than how we found it!

Shout-out to the Project Team for their hard work and excellent teamwork in providing the client a successful finished result: **Francisco Ortiz, Victor Pineda, Sergio Rodriguez, Jonnathan Morales, Daud Ayers, Cesar Lopez, Gerardo Mares, Frank Santos, Lina Lopez, Pablo Camacho, Giovanni Ramirez, and Alejandro Garcia.**
